rising to a new way of living

A NEW GENERATION IS RISING UP IN AFRICA. LOOK AROUND YOU - THIS MAY BE THE LAST TIME THINGS APPEAR THE WAY THEY DO. BECAUSE WE ARE DETERMINED. WE WILL RISE TO A NEW WAY OF LIVING. AND AS WE DO, AFRICA WILL SHINE. GET READY - BECAUSE WE ARE READY FOR CHANGE.

## THE FUTURE OF AFRICA

## *A time for change - a new beginning*

Behold, I will do a new thing; now it shall sprout; shall you not know it? I will even make a way in the wilderness, rivers in the desert. (Isa 43:19 MKJV)

Our theme for this year is simply, Change. We want to discover what it means to change to a new way of living and we want to help others discover the way to a different, Christ-like lifestyle. We feel this is going to be a year of consolidating what God has done over the past 3 years, but also one of breaking into new territory. Besides learning to live in a new, godly way, the 'new' includes our second year course in prayer ministry and increased development of academic and other curricula to cater for the specific needs of students. Please pray with us over the following:

- **Please pray** that our students will have the ability to quickly understand the path to freedom and have the grace to make significant choices to impact the rest of their lives. Ask the Lord for a speedy work in terms of connections with institutions and companies to present employment or study opportunities to our students.
- We are awaiting approval by a Canadian institution for an internship programme, whereby a Canadian teacher will be paid by the institution to spend up to a year on the farm, teaching our students. **Please pray** for favour and God's perfect will in this.

## *New things, new people*

This year we are privileged of hosting students from other nations at Eagles Rising. Nour is from Egypt, and will be joining the second year programme, to learn about prayer ministry. He is really a person of prayer and a true servant! Ceasar is a Zambian, destined to be a force of change in Africa.

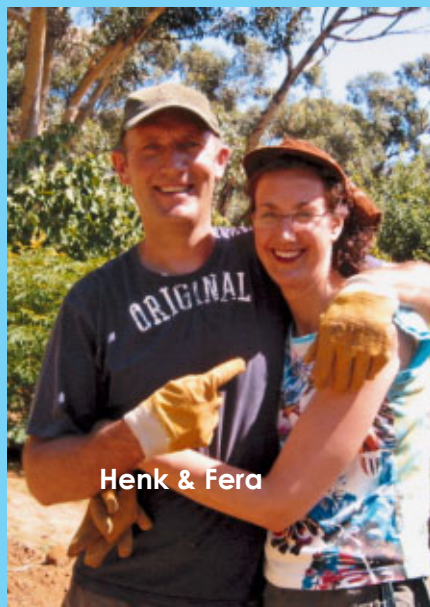

Another surprise is that Sanda, one of our first fulltime students (2005) is returning to Eagles Rising, also to join the second year programme. You may recall that we sent out prayer alerts for him recently. He was on a missions trip through Africa and encountered problems in the Central African Republic. He has been on staff with YWAM in Worcester, but wants to learn about counseling and prayer ministry.

## *Thank you!*

- ☺ We are very grateful to a businessman who saw Stella Thomas graduating at the Eagles Award ceremony last year, and decided to sponsor her to qualify herself as a frail care nurse with the Helderberg Society for the Aged.
- ☺ We are very grateful to **Henk Rombault and Fera Holt** who came all the way from the Netherlands to visit South Africa and establish an extensive vegetable garden at Eagles Rising. They braved the summer temperatures with their enduring smiles and contributed to the diet of our students, financing it from their own pockets. Henk and Fera - you are contributing to a new future for Africans!
- ☺ Dannagene, currently a second year student, learnt basic clothing design last year. Following a request for funding to buy her a sewing machine, several people responded. See the picture below of a very happy Dannagene!

### *Important notice!*

**We have a real problem with spam emails. Somebody is using our email addresses to send junk mail. If you receive junk mail from [eaglesrising.org.za](mailto:eaglesrising.org.za) - it does not come from us! We are trying to find a solution to this problem.**
